ONE DAY WORK CONFERENCE

“The True Dances of the Middle East”

Middle Eastern Dance has become a “BUZZ WORD” for Belly Dance that usually is made up of every kind of dance Except Middle Eastern Dance.

“This is what separates Tasha Banat Workshops from others. Beside New and Exciting Movement and Dance Steps, everyone will learn so many things about the Middle East and Belly Dance that whether or not you are a Belly Dance Student, Teacher, Performer, or are just a Historian, her workshops are fun, productive, and valuable to everyone who attends. You will come away with much knowledge and many new dance steps.”

More than just a Belly dance Workshop is what is presented by Tasha Banat.

First, you will learn about the Real Middle East with her exciting DVD

(Included with advanced registrations to her workshop only).

You will learn combination Debke (Middle Eastern Folk Dance) Steps that can be incorporated into your Belly Dance Style, regardless of what your style is. You will learn an entirely new Belly Dance Style Foundation to use in your current dance technique and so much more. It does not matter how long you have danced or if you have never danced, you will go away with valuable knowledge and insight to Asian Arabic Culture and DVD of a part of the world that is more than what you see in the NEWS MEDIA.

Tasha Banat has performed and taught around the world since 1965. Besides Arabic Style Belly Dance and Middle Eastern Debkes, she worked with the Families of the Hostages in Lebanon, represented the ADC (American Arab Anti Discrimination Committee) on many occasions. Hosted a call-in radio show about Palestine and Israel in South Florida (WFTL) and most recently, headed up the Racial Profiling Task Force, under former Mayor Chavez, in Albuquerque NM.

The “Near East Arts Alliance” includes Cultural and Educational material that is used for many projects around the country and this DVD is part of that media of which Tasha Banat is the Founder and Director.

Belly Dance is just one aspect of this and the music of the Middle Eastern and Egyptian/North African world is the Grand Parent of all Belly Dances in all of its forms today.
